You don't have all the time in the world
or an endless supply of funds. What
you do have is a project to complete.
Spire Consulting Group can help.

Spire Consulting Group provides the industry experience, commitment and proven results your project needs to help see it through completion. A multi-disciplined construction management and engineering consulting firm, we provide the innovative solutions for the proactive and forensic support you need to deliver your project on time and within budget.

Serving a wide range of industries and construction projects worldwide, we blend diverse expertise with keen foresight to achieve project goals and mitigate risk. Whether you are an owner, contractor, attorney, surety or other construction professional, we will assist you in achieving project success, from the ground up.

PROJECT PLANNING

PLAN TO SUCCEED

STRATEGIC PLANNING With some thoughtful planning you can ensure your project's success before it begins. From establishing scope and viability, to budget, schedule and team requirements, to process implementation and ongoing evaluation, Spire can help tailor a plan for your specific project needs. This includes gauging risk and developing mitigation strategies that will help you save time and money. From concept to closeout, we'll help you develop a plan you can build on.

Given the multi-faceted nature of construction, integration is the name of the game. Who you choose to have on your team will be crucial to its success. Our consultants work closely with clients as we have the proven expertise and ability to provide seamless integration solutions for your construction program. We'll collaborate with you to tackle the day-to-day responsibilities, while being mindful of the bigger picture.

CONSTRUCTION MANAGEMENT

TRUST IN EVERY DETAIL

To ensure the best outcome for your project, you need people who know what they're doing—every step of the way. Our experienced construction professionals provide effective leadership, sharp attention to detail and a valued partnership you can count on throughout the life of your project.

Our comprehensive services are designed to work in accordance with owners' and construction professionals' individual project goals.

- DAMAGE ASSESSMENTS
- SCHEDULE IMPACT ANALYSIS
- PRODUCTIVITY IMPACT EVALUATIONS
- CAUSE AND EFFECT ANALYSIS
- CLAIM PREPARATION AND PRESENTATION

How you resolve them will make the difference. Our seasoned professionals have experience in identifying, analyzing, preparing and presenting construction claims and disputes for construction and engineering projects worldwide.

Should a construction claim occur, we can assist you in assessing or validating entitlement and quantification of damages thus promoting a successful resolution in an efficient and timely manner.

LITIGATION SUPPORT

THE ADVANTAGE OF EXPERTISE

For a dispute to be resolved, you need information that is clear, concise and objective. Our experienced consulting and testifying experts analyze individual dispute situations and provide the objective and technical assessment needed to reach resolution. From mediation, arbitration and litigation consulting to expert testimony, we have the expertise and services to support you in every phase of the dispute resolution process.
